Cash Links clicks is very simple. These Cash links will appear in member's dashboard worth of \$0.10 to \$0.15 cents in total.

To click and earn from these does not require any purchase. You can refer more people to click these cash links, and you'll earn from their clicks too.

The only thing to remember is to click at least 10 ads in the traffic exchange to qualify for your referral clicks. This qualification lasts for 24 hours, so it's best to click your 10 ads to qualify each 24 hours-- and it's recommended to qualify before the timer runs out so you don't risk losing any referral clicks.

One of member posted on Facebook that they have earned \$0.10 from cash links in the last 24 hours.

Let's expand on that and Take an Example based on \$0.10 Cents by each Referral.

If you click all the cash links and earn \$0.10 -- if you had 10 referrals earning the same, even if they are free members, you would have earned \$1.10 from cash links.

Multiply that through 30 days, and that's over \$30 in earnings from people who never made a purchase.

More referrals will be more money for you.

**10 referrals X \$0.10 earnings from cash links X 30 days = \$30 from your referral clicks**

**10 referrals X \$0.10 earnings from cash links X 365 days = \$365 from your referral clicks**

**500 referrals X \$0.10 earnings from cash links X 30 days = \$1,500 from your referral clicks**

**500 referrals X \$0.10 earnings from cash links X 365 days = \$18,250 from your referral clicks**

**1000 referrals X \$0.10 earnings from cash links X 30 days = \$3,000 from your referral clicks**

**1000 referrals X \$0.10 earnings from cash links X 365 days = \$36,500 from your referral clicks**

Remember above is just an example of what you can earn by referring new members to Traffic Monsoon using your Referral link from Traffic Monsoon and it is Completely based on number of Referral actively working on daily basis.
